

TOUCHSTONE THEATRE TECHNICAL INFORMATION

- The theatre space is a black box stage with a raked house of 72 seat capacity.
- The main stage area is 18 ft. (5.91 meters) wide and 21 ft. (6.89 meters) deep. Clearance to the ceiling from the main stage floor is 19.75 ft. (6.48 meters) and clearance from lighting battens to the main stage floor is 18.10 ft.
- There are two apertures for wing space cut into the stage left wall 6 ft. 8 in. wide. One begins 1 ft. from the downstage edge, the other begins 10 ft. 1 in. from the downstage edge. On stage right, a 3 ft. wide fire door, beginning 4 in. from the downstage edge, leads out of the building.
- Special features include a spiral staircase and a balcony 13 ft. (4.27 meters) wide by 10 ft. (3.28 meters) deep, upstage of the main stage.
- There is an irregular backstage area of 150 sq. ft. with a private exterior exit. There is an open doorway upstage of the spiral staircase on stage left that connects to off stage space and the two stage left apertures.
- A black curtain backdrop can be provided to mask the staircase and backstage openings, but due to exceptional sight lines the upstage backstage area may be used as a visible performance space as well.
- The lighting system is a digital system with a total of 40 soft-patchable dimmers at 1.8 Kilowatts each. The control system is an ETC Insight 48 Channel console with a monochrome monitor. All stage connectors are 15 amp twistlock. The lighting battens are rigid, permanently attached to the house ceiling.

Usual lighting inventory is as follows:

- (3) 3" Fresnels
- (6) 6" Fresnels
- (2) 4 1/2" x 6" Lekos
- (25) 6" x 9" Lekos
- (2) 6" x 12" Leko with iris
- (9) 1KL
- (1) mini zoom
- (6) barndoors

- The performance space is acoustically active requiring nil to minimal sound reinforcement. The sound equipment inventory includes one Denon-C635 CD player, two Yamaha Club Series III speakers, a Mackie mixer series 1202 and a Crown CE 1000 power amp.

- Accessible from the backstage, on the 2nd floor, is a rehearsal studio and green room compliant to the needs for preshow actor preparation as well as an intimate space for workshops. A private restroom with shower and wash basin are available for actors' and technicians' use.
- A two-story lobby/gallery and adjoining café are provided with public and handicapped restrooms, box office and refreshments and concessions. Private off-street parking for up to sixteen vehicles plus one handicapped space is located at the rear of the building.
